India has enormous power and importance of faith in such a situation is not any other country, the Indians came over to foreign governments neck, because that has not changed for those who, on their own or alien rule or exploitation of their works, but the fundamental problem of religion, not politics. After Buddha’s death, there were eighteen schools of Buddhism. But Buddhism across northern India and Tibet and Inner Mongolia, China, Japan, was introduced, Mahayana, or "great Arab" was called. Mahayana Buddhism the gods and the Asvrh of Brahman, and modify the software. The ceremony, which was embodied in the Hindu heaven, on earth as it is Yazydnd.

Although the general acceptance of God and miracles and myths and Buddhism Mahayana Buddhism was the loss of patience and Brahman Egyptian kings down through support again captured.

Code of Brahman, Buddha, Allah said (to the Avtr Vishnu) and the return of the prodigal easy and thus put an end to animal sacrifice, Buddhism slowly closed after thousands of years of erosion of India depart. Religion "Hinduism" Buddhism took place, which was not only a religion, but a combination of faith and the faith of his followers had four common characteristics.
1. Brahma leadership class system to recognize;
2. Cattle, especially as established His divine dignity;
3. The law of karma and reincarnation and transmigration of souls had accepted;
4. Vedic gods and new gods had to do it over.

Hinduism Gods features an exaggerated anatomical view of the body as vague and mysterious or supernatural powers embodying knowledge and effort, they say, a new Brahma ‘four’ faces and Katkyh "Six" and Her "three" eyes and Indra "thousands" of some of the gods, “four” were involved in the collection and Brahma, the gods had given server. Hindu trinity of Brahma and Vishnu and Shiva and form a trinity.

The greatest manifestation of the love of God Vishnu and Krishna he was because he was born in the prison of his own greatness, and things appeared strange and wonderful.

Hindus consider the three processes are important in life: creation, maintenance and destruction. Brahma the
creator, Vishnu, preservatives and three other eloquent another devastating.

Worship Shiva, one of the most ancient and profound and frightening rituals of the Hindu god Shiva is fundamentally wrong and ruin and they embody all that is wrong with the fact that the universe itself is, like all cells, organisms, thought, and the individual can destroy planets.

She created the songs, the dances, go and open the Javan emerge.

The ritual death penalty birth, birth is the failure death and destruction is the secret of God, He thought of Hinduism, displays Tndab lust and reproduction. In some parts of India, the power of nature as creators and producers of Shiva or "Kali" wife of Shiva show. Her picture is on the front of the black board and come up with mouth open and tongue adorned with patients, the dancing dead, dead, her earrings, a string of skulls Grdnbndsh bloodied face and chest, and the series is truncated, two other hand, is open to the blessing and support. Mother and daughter Cali Alahh Parvty the destruction and death can be nice, too cruel, too, can laugh, even kill.

Some of the gods of India, rather than the process of God calling them evil, and some of the trends before God, angels or celestial bodies like the sun. (20/574 to 580)

Buddhists believe in prayer and worship of the gods and sacrificial ceremonies are superfluous and not natural law, God of power in the capture and arrest of rotation. Once again, they could not gather all the gods of stationary laws of nature into your duct run, stellar rotation laws such as garlic and rain shower, steam and corrosive properties of cold ice and fire, and many other laws could not even day Prayer and Praise be changed. All but a handful of Tndys are adorned with wood and metal. Because man is good, and the fruit will be good, the bad, the Badafrh he is not bad but the gods are not involved. What appears to be a man of his own, and as such thought. Many problems will unfold. (24/228, 229)

Mallhnd ancient Indian philosophy on the books, states: Indians knew that the eternal God has no beginning and mighty and wise and innocent, and the book Gita, in a conversation between "Sdvv" and "Various organic" is the phrase Shipping is:

"I am beginning all beings are not and never will I start my birth and does not end in death and criminal intent reward for their work and I do not have a class. Each of your creatures, anyone who knows me these traits, Hajati is necessary for survival, and have given me imitation is the characters who do not bother to greed, in that case, the classification The legs are easy to open and release him. »

These statements relate to the philosophy that says a person must be able to measure, is God. (4/35 to 37)

According to this philosophy, that kings and heroes took a step on the way to human happiness and the happiness they took things serious and important and marvel tasks are trying to God, in, and can be to God, the stage up gods that justify.

Alamm experiences in the book states that "the bottom of the pan Yysm" India and Iran sees the divine in every human being. (32, C 6/189)

Development of mythology, philosophy, Upanishads and the Buddha's teachings are influenced by the traditions and customs of the country for the first time in the Buddhist theory of education. In Buddhist mythology, the narrative of the historical and spiritual manifestation of the Buddha and Buddhist traditions that puts the former gods and beliefs, connect Hindi is examined. The Sun does encounter with Buddhism in ancient India, it competed with the characteristics and changes of the Buddhist mythology to be more complex.

Many of the stories are taken from the stories of Buddha's previous lives, called Jatgh (Jataka) Evolution is supposed to represent the Buddha and moral aspects of the visual embodiment of the soul of another. (8/244)

Remote tribal beliefs and myths, beliefs and legends of India before the Aryan and the Dravidian people older than the second millennium BC, are back. Dravidian tribes scattered in India's first Hindi sabalan canvas that within the years 4000 to 2500 BC found their way to India and the Indian territory of the brilliant creator of civilization in the Indus River Valley (Indus) There were, in other words, the philosophical heritage of India was influenced by two sources: first, the origin of the Aryan Vedic and Indo-European culture before the arrival of Aryans in transplants and the autochthonous culture that existed in the Indus valley.

People worship gods Dravidian people were farmers, and they were somehow connected with fertility and fertility.

Svarkarany Aryan warrior and charioteer were agile, sword dancers, and these features were quickly defeated Dravvydan. Aryans dark color, light color, and of course people win Dravvydan culture were revealed. Unlike the nomadic Aryans had not settled Dravvydan. Our knowledge of the Aryan gods from the hymns of the Vedas is known that about 800 years before Christ, had been set. When setting the Aryan gods Vedas Vedic mythology, but also lost its original form was a strain of ethics. (The 12/15)

So the rider Aryans were able to domesticate horses and the horses in their battle to win over local people, this has caused, the notion of demons and giants of the same animals to create in the minds of indigenous peoples, the natives believed, Aryan giants and Dave harness and take advantage of them or they are gods who are riding this monster can be thought of Persian mythology.

Books on Indian mythology has been one of the gods of the Aryans "Varuna Varuna "Guardians of the rule of law and the other gods of the Aryans and the Vedas have more respect for a few songs dedicated to him. Varuna hymns in the early universe and the creator is Dravnd.
movement in space, its power, standing and 'Maya Maya
"Application of the sun, the three worlds of heaven,
earth, and travels to the middle of it. In one of his
creations embodied in these hymns Varuna "is
everywhere, and oversees everything with your eyes like
the sun."  

Varuna in the story "The Golden Palace live thousand
and thousands of pillars and the door itself is in heaven
with his supervisors, the world is watching. "The story of
the horizon and the sun every day on the bank of Varuna
House and see the world through their reports Varuna.

Varuna's role in the traditions of creativity, moral role as
"Maya" truth and justice he is the diagnostic procedure
and the role of Varuna, the arbiter of good and evil to his
creatures. Varuna creatures behave with "Rita," the
regulations for the unknown creatures (the Avesta word
of Arta Arta Be remembered that the law firm is thereby
sustained.) Evaluates to punish rebellious. Varuna the
only official and the songs "Veda" is not sustainable over
the duties of the Lord shall be transferred gradually to
other gods.

Varuna the God of Gods greatest in the first three
(Varuna, Mitra and Ryaman) is. Mitra, Varuna at this stage
is more or less similar to the errors of the Mortals he kills
a man in the eyes of both God's forgiveness.

But with the power to rule the realm of Mitra and
Varuna experience and judgment to guard day and
Varuna, Mitra gradually becomes a night guard. Ryaman
divine gifts of the God of heaven, which is the origin of
these songs, the moon and the sun and the winds and
waters and seasons.

In the second phase transformation, as Varuna, Gods
trilogy "Dytas Adityas "God is not increased and their
role will be split between the state symbol of the sun in
twelve years. (Same as 16/17)

It can therefore be assumed that the gods were Aryan
gods were at their peak after a Hindi period of time to
find new forms of expression or function are altered, such
as during the pre-Aryan deity Mitra Moqtaderi not after
the decline of Varuna, the god of day has become, in the
Aryan and Zoroastrian mythology, the god of Aryan sun-
dial, which is powerful to watch. Role in shaping the
myths and gods of mythology and the gods of the Aryan
Hindi is perfectly sensible.

1. Egyptian Gods

In ancient Egyptian mythology, Osiris is one of the major
defeats of the Egyptian deities are complex, and each tribe
has its own special god of the species of an animal, bird,
or simply embodied idol. The images obtained from these
gods, the Louvre Museum is saved, it is the men who
carved totem Grzy or have to sit in the hawks and they
are tribal gods. The gods Ansannd some form of animal
with the human form of warfare weapons that are later
gradually transformed images or a combination of both
animals and humans have taken.

In the myth of Osiris mentioned that he had dark skin, a
beautiful face and tall, more than all men. The god father,
"Gb" resigned and went to heaven, the King of Egypt
Osiris as a meeting place and as (the god of the dead)
were worshiped. Here on the cosmological interpretation
of the myth of Osiris is that he dies as a vegetable soul is
born again and Nmvdgar continuous corn and vines and
trees. He is the ebb and flow of the Nile is like the sun at
dusk and dawn brighter sacrificed to radiation. Osiris was
the god of nature, the spirit of the plants at harvest and
during harvest sprouting grains while the man was alive.
(34/14 to 30)

Egyptians have made several myths about the
creation of the world that did not pay much attention to
how it is created, however, the remnants of some of
these poems is that they are back human Creator of Ra to
the creator of all things. Knew Ptah. Fundamental
principles of theology Ptah creates everything that
thoughts come from the heart of Ptah know that their
language is, in fact, is the creation of thought or Logos.

2. Babylonian gods

In Babylon, the Babylonian god named Baal (Bell Bel ),
Which replaced the old Marduk, praise and hymns to the
Sumerian religion was called two thousand years ago in
the era before Christianity existed. The two goddesses
called "its mouth I š tar "And" Nana Nanai "The Sumerian
goddess had been worshiped. Nana goddess cult in
prehistoric times, the time had come to Transoxiana, he
had a temple in the city of Nisa and Goddesses Temples

The ancient rituals were held, including prostitution.
Babylonian beliefs influence of planets on human destiny
and the world. During the Parthian and Babylonian
astronomy was also a center for astronomical studies.
(12/103, 104)

As was observed in addition to the mythology natural
motif abstract concepts are also applied so that the gods
too are human sins and the wonderful work of creation
and the supernatural as they are responsible for the
creation or existence of comes should act or practice
which in any case would be that of a gods existence and
configuration of all the affairs of some of their handling.
These forms myths or to recite poems or paintings or
statues from ancient times to the left and Pykrynh have it
written in their time of ancient gods and what is not set
instead of the Hazaras That may be too recent to be cited,
however, it repeats the myth that there is one thing
absolutely certain returns and the mythology of early
humans is undeniable that in the halo of illusions afsaneh
Human imagination is complicated and time that has
been blurred and ambiguous.

3. Greek Gods
When the initial Avlmpy gods, and worshiped all the respect they were better together until the power came sects and adherence and this led Zeus was the god creates a separation between the political and tribal and impossible unitarianism will. In ancient Greece, the family god was dedicated in his name constantly burning stove and the food and wine before the meal was dedicated to him, marriage, and death for the Fire even had to be done.

Thus every tribe and people and the city had a specific gods, eg: "Tnh» god of Athens and "Dmtr" Alyvsys City of God, "Hera" Seamus City of God, "Artemis" was put in the middle of the city of God in the highest part of the city It was the city god temple.

When the Greeks came out of the local limits of religious imagination, mythology and was a member of the Lord. For each of the aspects of Greek society and nature, the earth and sky, joy and goodness and evil, or the manifestation of God knew that the gods had human bodies, and it is characteristic of the Greeks. No ethnic people have imagined their gods so closely. Polytheism, like the number of people living in polygamy was essential to shave your God, the Christian saint of our times together hundreds of the Mediterranean, more than God, according to Christian and what attracts people gives the comfort, saints and gods are humanoid, not a rational concept of transcendent God.

About any of the gods, mythological origin story that he had, on the occasion of his human and make them shine. The mythology that was caused or made or from local demands Badger would Poets beliefs, philosophy, customs and history of ancient Greece created.

The mass gods were divided into seven groups:

1. Sky Gods: The Dark Lord comes back from mythology, Uranus was the god of the sun as a god (Helios) and Rain God (Zeus) and ran the other gods of the sky.
2. The gods: the God "Gaia" was the name of the mother was patient and gracious God, a God who also several springs (Mana Ndrvs) or the god of winds (Bvryas) and other gods who ruled the Earth.
3. God of fertility: the strangest and most powerful natural forces, the reproduction of a particular religion to which the Greeks were those, reproduction and fertility, they were related. The gods "Dmitry" and "Dynvsvs" and "Hermes" who were the male god and the image is displayed instead of the remains of their penis.
4. Gods animals: some animals such as cows, snakes were worshiped in the beginning of Greek history and even the animals were gods among Alahh "Hera" with eyes like cows, considered holy and sacred serpents in Greek art, on Hermes and Apollo and other gods bodies were seen.
5. Gods of the Earth "Pluto" was the god of death and rebirth of the earth and the changing seasons, the annual crop is taken from the mythology. Mvhstryn Greek gods, or caves and cracks in the basement floor and Greeks lived in those days they did not care about them at night to meet their fears worship. God was the most important criminals to "Zeus Mylykhyvs" that God called good because they won the title thanks to the evil side had offered ironic.

6. Gods, ancestors, or heroes: Greeks would be able to do good and evil spirits to placate them knew their victim and hero worship as a manifestation of racism was dead. In Kvlvns, with the title of "oedipal" God came to office in Sparta, "Helene" God found in the database.

Elders and the gods could give eternal life to men and beautiful women, and sometimes even fought among themselves incarnation of God in human body, and it was God's man and sometimes a woman between the gods and men placed a link was the champion of sex - God was created.

If fruit fusion "Zeus" with "Lkmnh", "Heracles" was. That Greeks can not differentiate between men and gods and Greek gods were made of their worshipers, and the gods of the people that eternal assumed, but some of them like "Dynvsvs" Hunt died.

7. Gods of Olympus: Olympus gods headed by "Zeus" was the god of gods. Uranus and Kronos and the other Titans were ahead of his time. Zeus and his two brothers, who divided the world among themselves. Draw on the sky as "Zeus" and the seas "Pvsydvn" under ground "Hades."

In Greek mythology, the gods created the world, not the world before the gods existed. Zadnd gods and humans intermingled with each other in the beginning, then your Bazardgan, men, sex, and hence believed that human beings descended from the Gods. Gods omnipotence of science and deception are not like humans and make mistakes and God will limit the power of other gods, even with their anti-arises. (20/197 to 202)

The ancient Greeks were more or less flat ground plain, jagged and assert that it is far from the ocean, the sky is a solid dome over the base rests on the shore, covered with below Tatarvs evil spirits torture high has. Sometimes the gods of Olympus, the residence of the sky and mountains were thought sometimes. The creation of a series of marriages and births would imagine: a marriage of Uranus (Heaven) and Gaia (Earth) Avksansys its fruit (Ocean), who in turn was considered the father of rivers and lakes.

The myth of meaningful, but often unreasonable, so the Greeks would appeal to the House was quoted as religious beliefs. Perhaps because of gravity and artistry of the narrators or was that later spread throughout Europe and has lasted for thousands of years in the literature and culture of Europe and other parts of the world, and the fundamental interests of the great philosophical systems. (29/9)

During the monarchy of Zeus, the man emerges, Zeus is able to choose the right man knows Rvhmnd balance. Prometheus, the Titan rebellion, which raises man from
the mud and dirt and the password is not able to select the right ambition and the earth is earthly, and Prometheus - Titan for His creation that lives up to the fall in the trap of banality Khsltsh is always ready, choice but resorting to the soul, which is not given, it does not have to seek and find all kinds of Kh+o lamp life of fire that even wisdom revealed in the light of the spirit of the place is kept rising and falling. Prometheus will not be able to bring the light of the lamp, the flame of the spirit of the protagonist is profitable, accessible to reason that the Titans will have to steal souls, because Zeus, the Titan rebellion flame bulbs have a good reason, not died.

Land Olympus, charts and ultimate goal is to develop a fundamental desire (of life) humans acquire it. Prometheus on His creation, only to be kidnapped by the aid of fire, to give souls. But the fire Titan - Reason Taghy inventory of dirt and mud that have been created solely to the wishes and desires Tqdyrsh that is dependent on the land.

Zeus of Prometheus as punishment for a crime that does not Rbaynd fire, but that the spirit of the felony counts against the banality of the man who created the Prometheus and the fire clay flowers that are John kidnapped They are an example of rebel Titan, corrupt, and are zealous to go to hell.

After the fire is fully prepared to represent wisdom, not just the clergy password "light" and sublimated "heat", but ruin and password deviations (Quality devastating fire) also has.

The first man to God, the fruits and the abundance of material in the impurity Scraper fire, the victim and the secret language related dreams that leave all the praise of the earth. Passions that are destructive fires flame on the mutants and humans will overcome evil Zdaynd rebel-led wisdom Krda proud of their ability to clever innovation and creativity, and its counterpart, the gods consider forgetting the spirit, and the vulgarity postal weaned.

Ampyan misconduct detrimental to the Titans - The wisdom to know the offense, they sent a plaguing upon mankind, which is the same Pandvr. She is the woman who created an artificial and lacking in confidence, but has benefited the most glamorous charm. Image Pandvr Aghvagryst aware that people will remember when the Spirit and of wisdom, illegitimate uses, is its victim. The symbolic meaning is tempting the gods to give inspiration. In the wake of the abduction of Zeus's fire, as this plague, devastating and charmer has revealed.

Apart from lighting the fire to be enlightened and guided by the spirit of wisdom did not fire, loses Bsyrtsh in anticipation of the blind man and a dreamer, and then another and does not know what is truly Useful The predictions will turn against him and eventually created his Kvrbynah realizes that this creation is not only useful but also dangerous and I feel guilty that pornography is dismal seizure continues unabated and debauchery And it is fun and it will appear Pandvr. When the brothers Prometheus "epithelial drill" is not what comes to mind. Epithelial boring, stupid and vulgar sense key idea is lacking, the only apparent benefit fleeting dreams and fantasies, to guide them. Rsannd drill has the same meaning epinephrine that Pandvr.

According to the myth, Prometheus, which is so far the gift of Zeus - Prometheus spirit which he considers not representative of the nature of justice, is despair. The Prometheus - Reason proud, but refuses to accept Pandvr Ramsay brothers Prometheus "epithelial drill" is to lure people in and out of the pie is so horrific disaster that has charmed and deceived into accepting the glorious gift. Epithelial drill Pandvr Wedding closes and thus get married, nothing but self-abandonment, decay and not deviate.

This means that the myth narrated story with cans Pandvr brings his gift for someone who is attracted to her, pointed out that the distortions of the cans have come.

Pandvr in celebration of his marriage, the canister opens and all Rzayl run it, and are spread around the world. (Marital relationship between epithelial Pandvr drills, such as making token seductive myth of Jewish descent who deceived man, Adam, mankind password disposition to get the nascent or initial.)

Although Prometheus Pandvr surrender, but the Qvbyt not escape the punishment. Kind of gift boxes that previously Qvbyt Qbay and fled Khbays it has set. Epithelial drill the Prometheus is the reason that the rebellion fails Corbin is detachable. The myth of the two brothers, the Titans, the only distinction is the identity. Following the spirit of Prometheus, punished, and the punishment, and not fall down, because Prometheus to the rock and tilt the ground Woman suede and creator of the Titans (humans err code) that the land is dry and barren, chained, tortured and oppressed every day, because the voice of a spirit that becomes horrific torture, as long as there is sin, becomes a torturer Eagle Call of the Spirit.

Heracles Prometheus created man - Champion and Zfrmnd the esoteric meaning, God and have overcome the banality and Tyryahsh (Pass Sun, Soul password lighting section) Eagle kills 11. The sense of freedom and a new life and finds a tortured soul comes to life. Heracles, Zeus, Prometheus wits with the spirit of reconciliation. Heracles man who is pure bliss, and the son of God and savior hero secret soul. Prometheus is a key area of the meaning of humanity. The fate of Prometheus, a symbol of humankind's basic story, the way his innocence of the animal (unconsciously) with the passage of rationality (self-awareness) of the efflorescence of life, self-aware cloud (Olympus) brings.

Two parallel and similar creation myth "of Christianity, Greek and Jewish descent" will also include all the details of the descent and ascent.

In the context both of myth, Prometheus and spiritualists evolution of mankind and the advancement and promotion to the rank of God's secret, will rise.
In mythology, the Titans defeated the dominant man (Heracles) of the clause Rhd, but the champions winner Christian myth to try and attempt to be rid of that man - he has the perfect life is really speaking Christ is called encryption.

Titan Eternity Code - reason, to cause death in humans - animals are equal in God's image and disruption in the Christian myth. (37/43 to 63)

This can be interpreted as, when a man dies after abandoned animals and sensual man, God goes to stage.

4. Ancient Aryan Gods

2-5-1 - Zarvan

Besides "Zorro" and in Persian "Zarvan" means the date and time and the name of His divine attributes which "the West" and "God spot" and worthy of praise, worthy of remembrance and prayer is like California.

Sasanian era, the Zoroastrian sect that existed in the cities and other nations Nahli, it's called "zurvanistic" is mentioned. So Zarvan largest Fryd was light and he did not pray Nineteen ninety-nine to stand up for her son to come and wish him the platform, with the thought that maybe it is not. The illusion that he is "evil" emerged "Hormozd" off of certain universe and both were in the mother's abdomen. Hormozd closely, but scheming evil to the mother's abdomen Brdryd before sending it out into the world Placed. Then Zarvan Hormozd set to "float" on the priest gave a sign and said to him, "Until I come, I pray thee, out of this so that you will pray for me. »(22/995 to 997)

The late Achaemenid period, public opinion was reflected in the changes that emerged was that the gods Mithras Zarvan over again as a common symbol of the clergy and the blessing of Jnkavry and power was enormous. The impact of public opinion on the benefits of change even finding the Zoroastrian religion in Iran, and then we can see it. Iranian Zoroastrian deities praised by many Iranians believe they can not learn. But after he and the head of the gods and goddess Anahita Ayzdmhr their religion the way they are. So Ayzdmhr the Indo-Iranian period, the tasks God bless the plant and is responsible for part of the Avesta Mhrysh is also reflected in the fact that the Iranian mythology, the goddess Venus, the goddess's blessing, we find that the manufacturer and the farmer's beliefs, opinions on the impact properties.

Iran's new law, which has been adapted old ideas with new developments, Zarvan puts at the head of the gods. His father is one manifestation Hormozd and evil is good and the other evil. Mithras is also another element of the interface and judge gods and devils Hormozd interface with humans and the gods of the earth and judged and saved the people responsible. According to some opinions, and Hormozd Zarvan father the Devil, and place them on top of her and she has the time and nothing will appear. Light and darkness, good and evil from him.

In the narrative of evil womb when the mother seeks the pain and the ugly Zarvan not be satisfied, but then had to be ruled by their promises and bring her first child into the world, but as he says, After nine thousand years the world will reign Hormozd, thus demon Hormozd is too basic.

Zarvan believed to repel evil and evil must be redeemed him from raising his evil avoided.

Zarvan religion, "Seal of God" is at the center of power is so powerful that some of it has even replaced Zarvan. (12/995 to 997)

According to Spring, a controversial point, it is noteworthy, that Zarvan God - Father, conceived in her womb ripped another demon and is out of the way, the description of the Avesta, the more logical it have been investigated: the Zarvan mother knows and believes in God during this period - the mother is.

Minoo (Q VII, paragraph 7 to 9) described this species as well as the Zarvan "Ormazd the Creator, and to bring these creatures and their Amshaspandan the clear (= prayer) made the Zarvan infinite, because the infinite free Zarvan old age, death, pain, destruction and corruption plague and no one can ever Bstand him and his job is open. (33/22)

In fact Zarvan Sasanian Zoroastrian Pahlavi literature, God is praised time and the time of the creation of the supernatural creatures of Ormazd start moving again by the time that they finally end the reign of rape Karan Ahrmn, and all the creatures of Ormazd and Ahriman is stronger.

Found in texts of old, and the world is Zarvan. The fate of mankind is the god of the sky, like a wheel 417 tons Zarvan has been recognized that it is sometimes considered an independent deity have. (7/35)

Ferdowsi also the heaven and heaven is described as:
I was told that some of the meat Andrew wonderful care of the wheel (5/47/27)

Color Yvsht Fryan book reads: "What Zarvan (time) that one entity to (i) no" (30/47)

According to these traditions, we find that Zarvan is eternal and existed before Ahura Mazda. The cult Zarvan can be thought of belief and the practices and procedures exist and are associated with the ritual.

However, some believe the island, before Zoroaster existed and some of it comes from the Persian and Babylonian culture knows. (7/35)

The Sassanid era writings he praised the people of God that is hard. God as God is eternal essence of time and place as God, in all His creation is Bykranh Bykranh but he is not innate. She and Ben are the source material is great and the whole universe is not self-originating source of all things, and God after death and God, the God of order, and the god of darkness and light is destiny.
Because Zarvan Bykranh to any of His creatures, even the gods are not discernible. Avesta (Yasna 30, paragraph 3) of the basic nature and represents evil overlord named Twin Krdarnth thought and spoke about the same time that God "Svash Immortals, the West Bank and Zarvan Zman eternal [Praise You] "(Yasna 72, paragraph 10). Frkrd the Vendidad XIX (paragraphs 13 and 16) also refers to the time that the West has been praised.

The. Rvdyvs Euemos Rhodios Pupil of Aristotle in the fourth century BC, the Magi and the whole story of Aryan (Persian), sometimes axiom of existence and reality and sometimes time and space "Zarvan" he called the two gem emerged, the author Another good and evil creator. Usually the statue (there) to mimic the example of the first things among the Eastern nations valve and the body that it had learned from Mari embodes and represents the number of objects when it is added, indicating that their Sjayay the characters and he still has not specified limit. (17/53 and 54)

Clay and metal bodies of the eternal mother, the Sumerian civilization, which is found in the works of Lorestan bronze objects of the seventh century BC indicate that God is without bounds. (28/167)

Oh god similarity and likeness are great and one of Pahlavi literature the Zarvan Zarvan original coordinates, aspect of his justice. As we read in one of Pahlavi texts called Ayadgar bozorgmehr, who is the most righteous Zarvan also feature the character, Oh God, and he is no longer with the Justice Court of free and slave, to be treated equally.

Based on divine wisdom (Section 11) and "All things happen time and providence Aly Zarvan world whose existence is eternal rule is a substantive and dependent. » Elsewhere it is written: "He who has God and the weapon away wow Hormoz Zarvan and the weapons that can defeat him by force ... This is the time to act was the creation of the West Bank was created to be the consequence of failure is evil, then the eternal immensity blends. »

Fourth, it is written: "He created the heaven and the divine destiny of God and is promptly Zarvan. (17/57) Prof. R. Jalali-Naini quoted. C. Zener Rzaehner Writes his work called Zener "or dilemmas Zarvan Zoroastrianism" reached the conclusion that the Sasanian Zoroastrian religious revisionism led to the Zarvan name may be removed from Zoroastrian books parent Zarvan previously Ahura Mazda and Ahriman is known, would later be considered one of the creatures of Ahura Mazda. Zener believed: Magi of Asia Minor were consecrated religious heresies Zoroastrians believe that on the one hand and the stem and roots were from Babylonia, which is likely to take time to think of Babylonia had taken from the most God, and He shows the planetarium. Zener, the piece is quoted Shahnam Zarvan provisions of this section is to outline the story of the six priests to Zal, Rostam's father Zal to re-examine and respond to the following questions: Then read the albino prince Kzvkhvast asked to speak Ing up Dell to buy As the famous albino priests To ask him a few things that Bnhfth speech at the curtain Ask a golden albino priest The Tyz-hsh Rahbyn Bekhradi I saw three of the ten and two trees Ordination is a lush and pomp Each one has it on CD horn Not more or less in English Kai said the priest again proud Taz sharp two-horse Granmayh Sea level to conduct a Qar White crystals of the hydrated Both have accelerated Bnjbd As others have Nyabdhn Si Kahn said Sdygr ride Brzgzhntd where the prince One is low, the Right Look It was like opening the CD Bshmry Kahn said fourth Meadows The nose is full of greenery and streams One man with a big sharp sickle is also a great Enduro Meadows All wet and leave you stunned apart among talk of hear ... It is also an albino priest replied: We ... Reaper Zmanst because Hmansh Nbyrh Hmansh NIA plant The young and the old one Nngrd Ydsh hunting before, Bshkrd Such is the world of construction and the That only one death from breast Nejad This, in turn, passes it Overall dawn of time and count ... (41/120 to 123/1517 to 1578)

In fact, this piece is epic zener observers thought that the evidence put complete Zarvan it knows that the Pahlavi texts and authors writing in Syriac and Armenian, and Greek Anthology has, in his opinion, this piece of video The "time", God is predominant, without mention of Ahura Mazda or Ahriman, who is among the priests, the king's representatives have asked Rostam's father Zal Here are six questions that project, reply And Zal answered the questions one by one and Ferdowsi bringing essential elements of this piece discusses Zarvan opinion it represents the situation of the house and the West Bank is interested Darfany Certainly Zarvan.

Day and night, light and darkness, and the time, day, month and year in which the timeshare interest is West Arm and Double fortune (sphere), the sphere of good and bad, sadness and joy into their sphere, and the carpenter and the God of Death ... All are elements that revolve around time and fate and destiny of death and the unknown shores of the time, everyone thought Zayyd Zarvan Zoroastrian priests all that had an albino Zoroastrian faith is genuine and what is the time to express explains that modern Zoroastrianism has long denied it. (17/66 to 70)

If the twin forces of good and evil, the foundations Zarvan know, the occasion would be to look at these lines, where
Ferdowsi in the Tour Down M. says:
Ferris Mrmdanm what is believed to Anyone who fails to save his life
If someone Prvrd years Demi except for her well Nngrd Cho is safe guy at a time Since then, no doubt invade
Go The double bed, put flour to dust Buck Reed is not afraid of it (41/77/984 to 987)
One can have an open mind towards philosophy Zarvan bad time to consider and that is the time or times as the good Zarvan and the bad, and the good time he and a Praise up wrath will be like: "Zman value" or "grace period", which was later painted over intellectual history and myth were true, but in folk belief, and is subject Are:
All good and evil under his command All children under his care (41/87/118)
Avyst of good and evil, and there is no god Ykyst (41/106/123)
Or: It was written into the metamorphic The command Nkhd never Fzvd Ironically, as G. Gordon Frvhsht full Brilliance are all blind and deaf (41/89/910 to 911)
Times have changed inscription found Where does that leave Bbayd (41/90/936)
Or at the beginning of Rostam and Sohrab:
If death attorney, what injustice? The cry and cry so much that is? (41/41/5)
So we can conclude from this analysis that the later Zoroastrian religion, beliefs despite attempts to remove Zarvan has duality as both good and evil, God will not deny, but what do people think of the old priestly life They even had the Zoroastrian religion. The longstanding belief was so strong that the next cycle will again highlight a special place for itself opened.
Apart from the philosophical and mythic construction, and Zaran Zarvan oriented nature of Ferdowsi not, but the two basic elements, namely the nature of the "good" and "evil" can be seen Zarvan all the whole epic On the basis of these two symbols together will be epic, but know that Zarvan GATT era, the balance and fade margin and spread only when the contradictions of class conflict, especially in the Sassanid era, which is sink to maghami high and mighty, even the Creator Ahura, are improved. Religious belief and vision in the next period, the color of their religious beliefs and rituals and traditions lost and the people remained as the time and days later, it was time to die, it will be remembered is the size of Ferdowsi's Shahnameh anywhere in the world knows the fate and divine nature, have at this point is even more powerful heroes in the power stroke and the effect is negligible.
According to Qureshi, the mother - God is in western and southern Asia, the mother of good and evil, light and darkness, good and evil, and both Indo-European and Indo-Iranian phenomenon is contrary to the belief that the "Yanvs" and two procedure rooms " Wow "Indo-Iranian dual worldview and " Spnth Mynyv and Angrh Mynyv "was manifested in Zoroastrianism.
But the vision of Indo-European and Indo-Iranian origin of this phenomenon has not been a single mother, the Iranian branch of the duality of good and evil Mynyv Angrh gradually Mazda and knew that the mother was born. Zoroaster believed to be rejected until after he opened the Avesta and later took over the title of "endless" and then enter Mz dysnan foliage new found beliefs.
Quraish's Vy kandr stated, the myth and god Zarvan time of the Persian tales and stories, the important element of time is amazing and wonderful. And Zal, father of Rustam, meaning "old, very old," with a long life, and a belief in the immortality of his time is as immortal as in R. Garshasb VAIO symbol of the goddess that she is too old. (28 / 167 and 168)
After the construction of the myth of time and it can be assumed that ancient peoples knew Zarvan boys night time and will cause the numbers that you were calculated and the life phenomena of decline, and the existence will. It is night and day Zarvan evil son of God and son Zarvan clear that this is the opposite of life is night and day in a place that is no place at night, so the myth of the event of natural gods think, because this phenomenon has been occurring outside of human strength and sign of extraterrestrial force.

2-5-2 - Magus

The word magus, Mrb Mgvsh (sent old) is. Term "Magi" is used to mean witch, because Mgvsh were skilled in magic and sorcery and magic gradually became world famous as the name of the language Greece used to be synonymous with witchcraft and its followers, the term "magic Magic , "And" sorcery Magicien "The Classic English language has spread to Europe.

Authors ancient Zoroastrian religious leaders, especially the firewalls guards called Magi.
The Iranian Zoroastrian Magi Magi and Chaldeans who were differing. In their opinion, the Magi of Chaldea teach their religion, magic and witchcraft and magic, and the occult sciences and techniques were also used to have the reputation. But after philosophy and teachings of Zoroaster, the Magi of Iran, have not learned the arts of magic and magicians.

Magus of the Aryans invaded the ancient Iranian President indigenous inhabitants who were not religious, they were strong during the reign of the Medes and the selected group or sect, but since the turn of the kingdom to the Persian people of their power and down and the Zartosht, the Magi were still strong, (17/73 to 77)

Before the king of the Medes, the Magi were the aboriginal non-Aryan religion of Iran that Aborigines were Iranian (which is a double-minded, but have faith in the Resurrection.) (40/61)

Gold's promoters said: "He was a prophet Asbytman Zradshf son of famous Magus, and the book is brought to the public to" whisper "is known as the magus named" Bstah "is. He brought the Zradshf Mhyr Alqvl miracles and minor events that occurred before the data is sent. »(31/224)

In fact, the Quran and Islamic traditions are known and the most resources Magus Book and the Book of the prophet. In some traditions, the prophet Zoroaster Moslehi did not know that the approvals reform has been a Magus.

Not unlikely that the Code Magus, a monotheistic religion and the divine origins of the next cycle of duality strayed and superstitions and its teachings are very colorful and the founder of the religion of Zoroaster in his later emerged, not Teachings of Magus has raised new again, so that the old beliefs and the beliefs of his time in the mix and it has been modified, the new law anymore Both bin (Ahura Mazda and Ahriman) evil and evil are not equal to thought the idea was a good contrast.

The myths of modern philosophy can not be addressed in this case study work We've done nothing Because most of the mythology, philosophy and beliefs may have been reasonable in the same era, such as the myths of life and death that its interpretation should be given of how beliefs and religion, it is on the beliefs and style framework old Shakhf religion and philosophy, it is not accountable to the ancient belief that rational thought and the roots of today's more interesting to live this kind of mythology the gods before the creation of human beings refers to various forms of could Vkhyr and evil, and bring and portray the gods in the shape of humans and other creatures are actually a mythological hero or a devil and a demon in the literature and myths, customs and life of a picture of people smoke .

So ancient beliefs change over time lost or gained and Or similarly, have coordinated their moral values and life goes on, and sometimes it cannot be rooted and even geography, but it can be observed that the decision of the root of the mythology Unity and diversity of creation that has no ethnic distinction and the more regrettable that today is the fight or flight.
